HOW DO I KNOW IF I HAVE CONSENT?

Signs you should **STOP:**

- You're too intoxicated to gauge or give consent.
- Your partner is asleep or passed out.
- You hope your partner will "go with the flow."
- You intend to have sex by any means necessary.

Signs you should **PAUSE & TALK:**

- You are not sure what you want or what the other person wants.
- You have not talked about what you want to do.
- You feel like you are getting mixed signals.
- You assume you'll do something you have done together before.

Signs you should **KEEP COMMUNICATING:**

- You come to a mutual decision about how far to go.
- You both express comfort with the situation.
- You both feel safe stopping at any time.
